

# Triaxial piezoresistive accelerometer

## Model 713 - 713F

#### **Key features**

- 2000 g full scale range
- Multi-mode damping
- High output for excellent signal-to-noise ratio
- 713 for adhesive mounting
- 713F for screw mounting

#### Description

The Endevco model 713 and 713F are an extremely small piezoresistive triaxial accelerometers designed for crash testing and similar applications that require minimal mass loading and a broad frequency response.

The 713 and 713F utilize three advanced micro machined, full-bridge sensors with gas damping and integral mechanical stops to ensure ruggedness, high output, high accuracy and high resonant frequency. Each accelerometer has full scale output of approximately  $\pm 600$  mV typical with a full scale acceleration of  $\pm 2000$ g, using 10 Vdc excitation. These models include multi-mode damping, producing excellent response over a broad frequency range. With a frequency response extending down to dc (steady state) acceleration, this accelerometer is ideal for measuring long duration transient shocks.

## Model 713 - 713F

#### **Specifications**

All specifications assume +75°F (+24°C) and 10 Vdc excitation unless otherwise stated. Calibration data, traceable to the National Institute of Standards and Technology (NIST), is supplied.

| Dynamic  | Units                              | ±2000                              |  |

# Triaxial piezoresistive accelerometer

## Model 713 - 713F

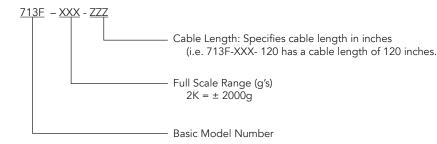

#### **Accessories**

| Product | Description   | 713 | 713F     |
|---------|---|-----|----------|
| EH136   | Screw, socket head, 2-56 x ¼ alloy steel blk oxide (x2) | N/A | Included |
| EHM178  | Hex wrench 5/64   | N/A | Included |

#### Notes

- Positive acceleration along axes 1 (x), 2 (y), 3 (z) in the directions marked on the housing will cause positive charge in the output voltage.
- 2. Model number definition:

# Cable Length: Specifies cable length in inches (i.e. 713-XXX- 120 has a cable length of 120 inches.) Full Scale Range (g's) 2K = ± 2000g Basic Model Number

#### **Ordering information**

 Maintain high levels of precision and accuracy using Endevco's factory calibration services. Call Endevco's inside sales force at 866-ENDEVCO for recommended intervals, pricing and turn-around time for these services as well as for quotations on our standard products.
